

School Days

Phillips' Fliers

September 3, 2010

Look What We Are Studying

Reading: Please have your student read 20 minutes nightly and record the title in their agendas. Students will focus on identifying genres.

Math: Check your student's agenda nightly for math homework now that we are switching for math. We will continue to study estimation and rounding.

Social Studies: We will continue the study of early people of North America.

Science: Students will continue the study of weather, water, and climate.

Look Who's in the Spotlight!
