Mrs. Fickel September 3, 2010

Look What We Are Studying!

In math this week, we continued to work on place value, and practiced the skills of comparing, ordering, and rounding numbers. We will continue this in all math groups next week. In reading, we worked on vocabulary strategies and backing up to reread in fiction and nonfiction. In writing, we began our Memoirs writings. Next week, the students will bring in an artifact that represents an important event in their lives. These artifacts are due Wednesday. Please talk with your child about the importance of the artifact, and do not send anything breakable or irreplaceable.

Instructional Focus for the Week:

Reading: Native Americans
Writing: Memoirs writing
Spelling Unit 3—/e/ sounds; "h" letter combinations
Math: Place value/rounding
S.S.: Native Americans
Science: Clouds

jan_fickel@gwinnett.k12.ga.us

Upcoming Events:

9/6 Labor Day
9/10 Home Reading Journal due
9/8 Artifacts due
9/14 Skate Night
9/23 Papa John's

It is very important to have the multiplication facts memorized. Please work on this daily, because the facts are easily forgotten. A good way to study is to work on 5-6 problems for 5 minutes a day until memorized, and then add more.

Student of the Week:
Amina
Birthdays:
No birthdays this week.
Congratulations!!
